

INTRODUCTION

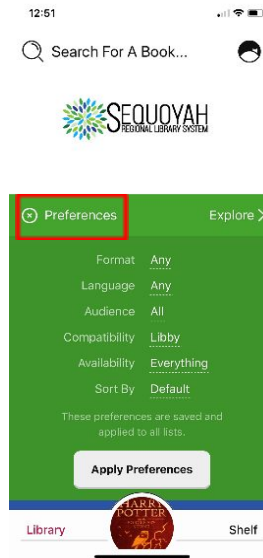

Libby houses thousands of book titles! Thankfully, you can customize your search to find the book titles that are right for you. Follow this brief guide so you can customize your search the next time you browse the library's eBooks and eAudiobooks.

HOW TO

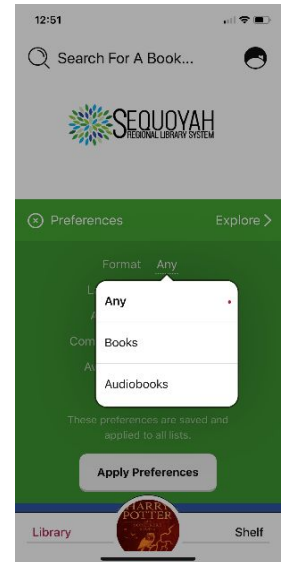

First, access the Libby homepage.

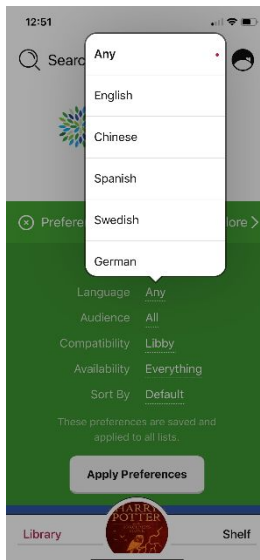

Next, tap on or click on "Preferences". Here you can see all the ways you can customize your search.

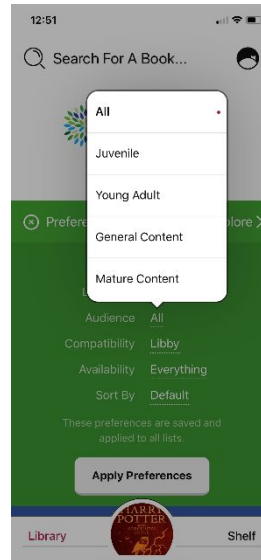

By selecting "Format", you can choose if you prefer to see Books or Audiobooks.

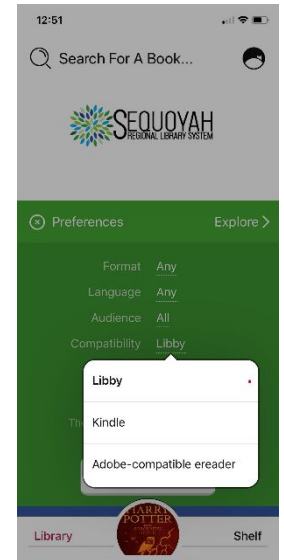

Select "Language" so you can choose to only see titles in a certain language.

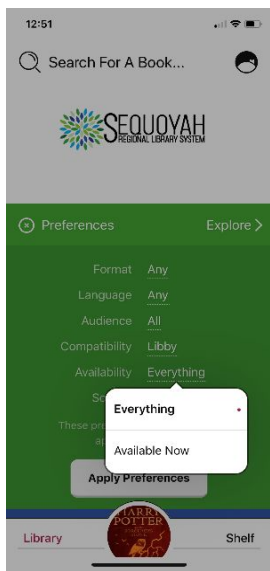

Select "Audience" so you can choose to see titles specifically for a particular age group.

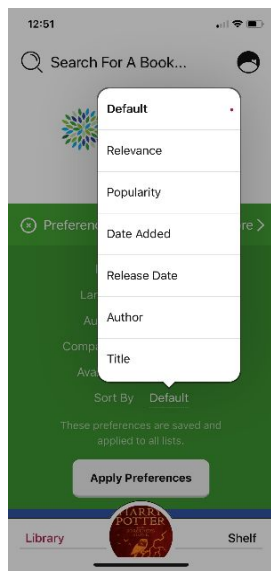

Select "Compatibility" so you can choose to see titles that will work well with your device. The most common choice is the "Libby" option.

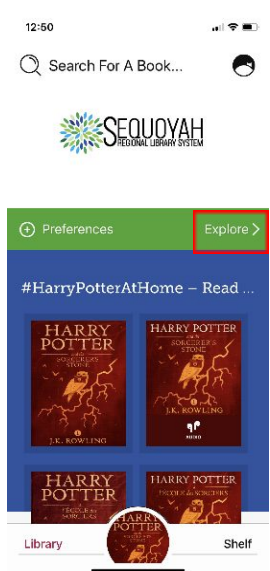

Select "Availability" so you can choose to see all titles or only titles that are currently available for checkout.

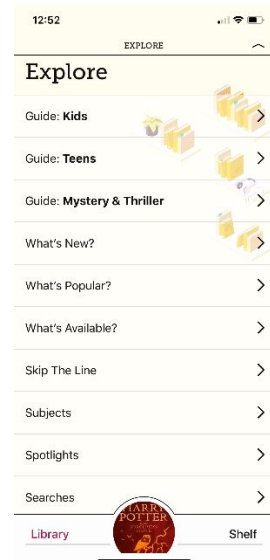

Select "Sort By" so you can choose how titles are listed within your search results.

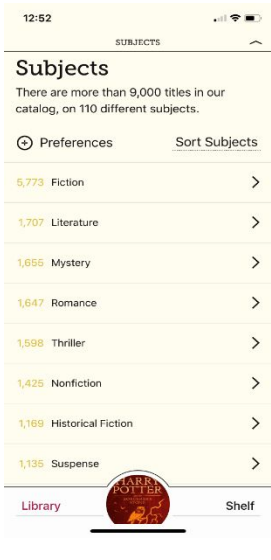

You can also select the "Explore" button to view other search options.

Tap on the "Explore" option to view popular genres, new titles, different subjects, and much more.

The "Subjects" tab is a popular search option. This tab shows you how many titles the library has on each subject.

Enjoy customizing your Libby search and finding book titles that are a great fit for you.

CONCLUSION

The customizable search settings in the Libby app are easy to locate and can be very helpful in finding your next great read.

If you need further assistance with this aspect of Libby, you may access Libby's "Help" feature by tapping on the Libby icon in the upper right corner of the screen of the Library or the Shelf.

If you want further guidance from a staff member of the Sequoyah Regional Library System, please go to <https://www.sequoyahregionallibrary.org/> and access the contact form by selecting the "Contact Us" link.
